

## Join Us for Wolters Kluwer Coffee Shop Chats

Connect with our team of expert clinicians at ASHP Midyear over coffee to discuss your pharmacy initiatives and other important topics.

To sign up please contact Jeff Drengler, [Jeff.Drengler@wolterskluwer.com](mailto:Jeff.Drengler@wolterskluwer.com), or stop by booth #1029 and let us know what time works best for you!

### Discuss topics such as:

1. **Antimicrobial Stewardship:** discuss strategies for building a successful antimicrobial stewardship program, including ongoing updates and tracking progress.
2. **Medication Management:** discuss strategies around specific medications or medication classes, relating to cost savings, reducing/improving usage, or other pharmacist practice.
3. **Tracking and Improving Pharmacy Cost Savings, Including High Cost Medication Management:** discuss strategies to identify pharmacy goals, link those goals to discrete metrics, and tracking those metrics using Senti7 and Quantifi.
4. **Rolling out Pharmacy Policies During Mergers & Acquisitions:** discuss strategies for standardizing practice across pharmacies following mergers, acquisitions, or other large organizational changes.
5. **Aligning Pharmacy Initiatives Across Facilities:** discuss strategies to roll out new or updated pharmacy initiatives across multiple sites.
6. **Aligning Infection Prevention and Pharmacy Initiatives:** discuss strategies to collaborate with infection prevention staff/leadership to ensure successful joint initiatives (e.g. antimicrobial stewardship, C. Diff reduction).
7. **Aligning Nursing and Pharmacy Initiatives:** discuss strategies to collaborate with nursing staff/leadership to ensure successful joint medication management initiatives.
8. **Establishing Decentralized Emergency Pharmacy Services:** discuss strategies to create an ER pharmacist service in a community hospital setting.
9. **Improving Safety with JCAHO “High Alert” Medications:** discuss JCAHO “high alert medications” regulations and establishing your own policies to support those guidelines.
10. **Improving Anticoagulation Safety and Meeting JCAHO Goals:** discuss options for improving patient safety and meeting JCAHO standards for anticoagulation.
11. **Opioid Stewardship and Diversion:** discuss strategies for establishing or improving an opioid stewardship or diversion monitoring program.

**To RSVP contact Jeff Drengler, [Jeff.Drengler@wolterskluwer.com](mailto:Jeff.Drengler@wolterskluwer.com), or stop by booth #1029.**
